The Book of Grace – The Lost Pages in the Story of Jesus and Mary Magdalene

The Book of Grace, Volume 1, is a revelation. It offers compelling reading for anyone who has questioned the validity of the Holy Bible and the interpretation, distortion and even absence of events recorded. This powerful and touching book, which was channelled by Archangel Michael through Angela Hickman, presents some of the missing pages in the story of Jesus and his life partner Mary Magdalene, their four children and their spiritual journey with the other disciples through many lands and cultures, where they offered healing to those to whom they were directed.

As Angela freely admits, she is “not a writer” and says that she cannot take credit for the book, for she “did not write it.”

Angela said, “I began channelling Michael three years ago soon after a very abrupt spiritual awakening and he told me a few months later that we would work together on a book. I channelled from Michael every day for weeks on end. I often asked when we would begin the book, but my answer was always, “When the time is right.” Then, one morning, I was woken around 5.00am by Michael with the first words of the book and he said, “It is time.” From then, I channelled the majority of the book in a matter of weeks. I received it in around 130 sections, all jumbled up, so I had no knowledge of its format, what it would cover or what was coming next. Michael was also very precise about the words. If I got one word wrong, he would stop and wait for me to correct it. Not until I had done this would he proceed. Often, I would question the grammar and feel the text to be fragmented in parts, but was clearly guided not to change anything or allow the text to be edited, as the very meanings of the fragments would be lost.”

The book shakes the foundations of all orthodox religions that are governed by their own oppressive rules and regulations, most of which seek to dominate and attempt to denounce any other beliefs or thought patterns.

In one section of the book, after Jesus and Mary have walked into the oasis, one of Jesus’ trusted universal guides, Troubadour said, “.....Look around you friend, see how the alpha energies rule this place. Not from a place of darkness, but from a place of habitual conditioning within the culture they are born into. Look at the women. Do you see any?”

PRESS RELEASE

“Only those covered from head to foot,” replied Jesus silently to Troubadour.

“From your perspective of love dear soul, would you create a society like this?”

“No, I would not. I would not shroud my beloved and hide her beauty, her love and her light. She has too much to offer, too much love to give.”

A little further on, when Jesus is addressing a crowd, he says, “God does not ask you to build temples and churches to worship in his name. He does not ask you to listen to the ego of man, to those who speak with instruction to find the right pathway. Do not be a follower of a teacher, dear souls; be a follower of light if you choose. And this, dear souls is the word you must remember. To choose. It is always your choice.”

When Jesus heals a woman called Nadia, the man who loves her falls to the floor, arms as if in worship of Jesus. In response, Jesus says, “....No man should bow and worship another. God himself does not require adoration and worship. Only love...”

The events in the book are not necessarily in chronological order and yet they were channelled to Angela in this way, so that some of the questions you may ask when you read the book are not answered until the final chapter. Irrespective of a reader’s own beliefs, there will always be questions that everyone has asked about certain biblical events. Without doubt, the answers to some of these questions lie within the pages of The Book of Grace, but it is for the individual to decide whether they accept these as the truth.

If you find yourself asking, “Why Angela Hickman?” Angela’s explanation is, “I believe one of the reasons is because I do not subscribe to any religion and have no religious background. This gave me a ‘blank mind’ so I did not question what I was given; I just let the words flow.”

If you are also asking, “Why now?” the following passage from the book throws some light on this:

P R E S S R E L E A S E

“She (Mary) was shown a group of souls would incarnate in subsequent lifetimes to care for the secret and see that it was protected and not revealed until the time was upon the world to make a choice. At this time, the souls around them now, would return and locate, through etheric guidance, the coffin and reveal its secrets; reveal the secrets carried by Mary Magdalene. In her very bones, a genetic blueprint of DNA would, in the future, be tested and show the world of science the blueprint for the future of the human race. This will then be mirrored and seen in new souls who walked the earthly plane thereafter. The miracles of the current day were nothing when held against the miracles of those future days of joy and love when the world was in turmoil, at war and on a path of self-destruction.”

Angela’s editor, Jan Andersen said, “I feel immensely privileged to have had the opportunity to read this book prior to publication. Although the words contained within mirror much of what I have always believed in spiritually, I found it challenging as a writer and editor not to alter the text in any way, even if the words, spelling, sentence structure and grammar did not fit the recognised rules and regulations of English. However, upon reading the book I could understand the importance of leaving the words exactly as Michael had channelled them. If they had in any way been altered, then we could not say that the book had been entirely written by Michael and some of the meaning would have been lost.

“I feel that the physical world has been waiting for this for a long time. Most people can clearly see that humanity cannot continue the way that it is, controlled by greed, corruption, and obsession with power, resulting in disharmony, cruelty and hate. Although The Book of Grace will cause major controversy amongst those who have been enchained by their own cultures and teachings and follow the masses for fear of ridicule, those who are not afraid to question what they have been taught will, hopefully, feel a great sense of relief and enlightenment. The book does not dictate. It presents information and allows the reader to make his or her own choice. I do feel sure though that many will, as I have, feel a burden lifted from their shoulders and say, “At last!”
